

Project Demo Planning

Date	23 June 2026
Team ID	SWTID-2026-7037
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

Step	Activity	Notes
1	Introduction & Problem Statement	Set context on farmer pain points around crop selection
2	Solution Overview	Introduce OptiCrop's ML-driven approach

3	Live Feature Demonstration	Demonstrate FindYourCrop form → prediction result end-to-end
4	Q&A Session	Open floor for evaluator questions

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the agricultural problem of poor crop selection and its impact on farmers	3	Divya Sreelekha
2	Solution Overview	Walkthrough of OptiCrop's approach — ML-based crop recommendation via Flask web app	3	Divya Sreelekha
3	Data & Model Walkthrough	Brief overview of dataset, preprocessing, and model training/evaluation results	4	Divya Sreelekha
4	Live Feature Demonstration	Live demo: Home → About → FindYourCrop → submit inputs → view crop prediction	5	Divya Sreelekha
5	Architecture & Tech Stack Recap	Brief recap of Flask + Scikit-learn architecture and key design decisions	2	Divya Sreelekha
6	Q&A Session	Address questions from evaluators/stakeholders	3	Divya Sreelekha

Demo Flow Summary:
